

Mosaics

The mosaic project was started by Marsha Wolff, English teacher at Nevis Public School with the help and support of Gary Wolff, art teacher. The first mosaic made was the Tiger mosaic in the lobby. After that, the three surrounding school mosaics and the Minnesota and America dedication followed. The final mosaic created by Mrs. Wolff and students was the alphabet mosaic which hangs in the elementary hallway. After retiring from Nevis Public School, Mrs. Wolff and student Anne Rittgers completed the NHS mosaic which is hanging in the Tiger Arena entryway and donated it to the school. She spent many hours voluntarily creating these mosaics and giving students the experience and opportunity to contribute something permanent to their school.
